

Emre Ceyhan

Full-Stack Engineer | Next.js, React, TypeScript, PostgreSQL

Bursa, Turkey (Open to Remote & Relocation) · +90 543 856 27 96 · emreceyhnn@gmail.com
linkedin.com/in/emreceyhnn · github.com/Emreceyhnn · emreceyhan.xyz

SUMMARY

Results-driven Full-Stack Engineer with startup production experience and a proven track record of shipping highly secure, multi-tenant SaaS architectures end to end. Specialized in Next.js, React 19, TypeScript, and PostgreSQL. Focused on measurable engineering outcomes: reducing API latency, streamlining real-time data flow, and holding Lighthouse performance scores at 90+.

EXPERIENCE

Founder & Lead Full-Stack Engineer — LogiTrack (SaaS MVP) | Nov 2025 – Present

github.com/Emreceyhnn/Logitrack · logitrack.emreceyhan.xyz

Next.js (App Router) · TypeScript · Prisma / PostgreSQL · Firebase RTDB · Upstash Redis · Material UI

- Architected and shipped an end-to-end, multi-tenant fleet management SaaS platform supporting full operational lifecycles under a strict company-scoped tenant isolation architecture.
- Eliminated 10-second polling delays by designing a real-time vehicle tracking system handling 200+ concurrent streams via Firebase Realtime Database and Leaflet maps, integrated with Valhalla turn-by-turn routing.
- Saved 350 kB in browser bundle size and cut First Contentful Paint to 0.7s by engineering a dual validation stack using Formik + Yup on the client and Zod on the server.
- Hardened platform security with jose JWT access/refresh tokens, instant session revocation via an Upstash Redis denylist, permission-based RBAC, and nonce-based CSP headers in edge middleware.
- Developed a super-admin diagnostic console with live service health probes (Postgres, Redis, Resend, Firebase, Valhalla) and soft deletes to prevent data loss.

Wanderlens (Tech Startup) — Frontend / Full-Stack Developer | Feb 2025 – Present

wanderlens.net

Next.js · React · Material UI · PostgreSQL · AWS

- Collaborated on PostgreSQL schema design and reduced API response time from 800ms to 210ms on 3 critical endpoints through query optimization and indexing.
- Developed and delivered admin dashboard modules for tour-operator performance and financial tracking with Next.js (SSR/CSR) in an Agile startup environment, cutting component duplication by ~40% across 3 modules.
- Engineered data tables for large datasets using server-side pagination, caching, and debouncing to keep data-heavy views responsive.
- Raised and held Lighthouse performance scores at 90+ on key dashboard views by monitoring Web Vitals and resolving LCP/CLS bottlenecks.

PROJECTS

TaskPro — Full-Stack Kanban App | 2026

github.com/Emreceyhnn/taskpro · taskpro.emreceyhan.xyz

- Developed a Kanban task manager (React, TypeScript, Node.js/Express, MongoDB) with drag-and-drop workflow and JWT access/refresh authentication, documented via Swagger.
- Achieved Lighthouse 99 (desktop), FCP 0.7s, and LCP 0.9s through route-based code splitting, lazy loading, and skeleton states.

Money Guard — Personal Finance Tracker | 2026

github.com/Emreceyhnn/money-guard · money-guard-theta.vercel.app

- Built a finance tracker with real-time currency conversion behind a serverless proxy (CORS-safe), Redux Toolkit state management, and cached external API responses.
- Scored Lighthouse 98 (desktop) / 85 (mobile) with 100/100 in Best Practices and SEO.

SKILLS

Languages: TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React, Next.js (App Router, SSR), Material UI (MUI 7), Redux Toolkit, TanStack Query/Table, Vue.js, Emotion, Framer Motion

Backend: Node.js, Express, Prisma 7, REST APIs, WebSockets, Zod, Yup, Formik, JWT, bcryptjs

Databases & DevOps: PostgreSQL, MongoDB, Firebase Realtime Database, Upstash Redis, Supabase Storage, Docker, AWS, Git, CI/CD

Testing & Quality: Node Test Runner, React Testing Library, jsdom, Jest, Playwright, ESLint 9, Prettier

EDUCATION

IT School GoIT — Full-Stack Developer Bootcamp | Nov 2025 – Jan 2026

Izmir Demokrasi University — B.A., International Relations | Sep 2021 – Jul 2025

Spoken Languages: Turkish (Native) · English (Advanced)
